[Video Introduction](#)

ABOUT ME

I'm a Software Engineer with two years of experience specializing in full-stack development, WordPress, and CRM customization.

Successfully delivered 14+ projects, building responsive websites, integrating custom APIs, and optimizing CRM workflows.

A proactive learner passionate about delivering clean, scalable, and user-focused solutions in collaborative environments.

EXPERIENCE

May 2024 – Present

Software Engineer

Bhea Technologies Pte Ltd

- Engineered and customized full-stack client projects from scratch using WordPress, PHP, and JavaScript, from initial requirements gathering to final deployment.
- Developed and integrated custom CRM (SugarCRM) solutions, managing complex data automation and API integrations to meet client business logic.

Feb 2023 – June 2023

WordPress developer

Soloasix Travel Blog Website

- Developed a fully responsive and user-friendly design for a travel blogging website using WordPress.
- Ensured high client satisfaction by meeting expectations and delivering a quality product.

Feb 2024 – May 2024

Frontend Developer Intern

Myanmar Cyber Youths Organization

- Developed responsive frontend designs and integrated APIs for an event planning app using Next.js, React, Tailwind, and TypeScript.

March 2024 – Present

Frontend Development Tutor

Skills Hub Academy

- Teaching a Frontend Development course covering HTML, CSS, JavaScript, Tailwind, Bootstrap, TypeScript, React, Git, and GitHub.
